MAINTAINING HYGIENE

1. The Director's instructions regarding disinfection and cleaning must be followed

2. Disinfecting – Care must be taken to adhere to the hygiene regulations throughout and to instruct the workers and make them aware of this matter as well, including disinfecting internal surfaces; surfaces with which visitors may frequently come into contact, (handles, doors, railings, counters, partitions, switches, elevator buttons, etc.) This must be done frequently and no less than twice per day and then again at the end of the day's activity.

3. Disinfectant for clients – disinfecting stands for hands should be readily available and easily accessible

4. Bathrooms shall be disinfected and cleaned frequently

5. Emptying of garbage bins must be done frequently

6. Cleaning and disinfecting tables and chairs after people have left the premises. Upholstered chairs will also be disinfected at the end of the day
7. Resetting the tables shall be done after each seating
8. Table utensils such as salt & pepper shakers etc shall be disinfected after each seating
9. Menus shall be disposable
10. Bathrooms sinks will have hot water available, soap and paper towels, and suggest to clients to wash their hands before dining
11. At the end of each day a thorough cleaning should be carried out in all work areas including tables & chairs
12. Display areas and products in the display area should be covered

IN THE KITCHEN

- 1. The manager's guidelines regarding safety, disinfection and cleaning should be carried out**
- 2. As stipulated in the regulations, distancing in the work area must be observed as much as is possible**
- 3. Kitchen workers are obliged to wear masks at all times except for those who are exposed to high heat (red stripe for most ovens) and they shall wash their hands frequently**
- 4. Separation of food from the Cleansing-** There will be maximum separation between the employees touching food, and cleaning workers. Should this be impossible then it is suggested that by frequent washing of the hands by the workers who handle food, is most important
5. Cleaning and disinfecting the kitchen – Work surfaces and the kitchen's all-over surfaces should be thoroughly cleaned and disinfected at the end of the day
6. Dish Washing – Wherever possible dishes should be cleansed in a dish washer following the manufacturer's instructions followed by disinfecting the load with 82 degrees hot water for at least ten seconds. When washing dishes by hand will be carried out in water and detergent followed by disinfecting the dishes with 77 degree water for at least 30 seconds or disinfection using concentrated chemicals of at least 100 mg/L (*abbrev. for milligrams per liter*)
- 7. Employees will have a training session about the restaurant's operating rules**

INSTRUCTIONS TO OPERATE A STORE OR A BOOTH IN A DESIGNATED TOURISM ZONE

Guest reception and avoid crowd

1. Maximum capacity

Gatherings are restricted so that there is but 1 person per 7 sqm or twenty people whichever is the lesser - and not less than 4 people

Shops of 300 meters – no more than 1 person for every 15 meters

2. A sign designating how many people are permitted inside has to be prominently displayed

3. **Setting up a mechanism system** for supervising the number of entries, not including employees, so that at no time are there more people than allowed according to the regulations

4. **Avoid Crowds**- best efforts should be made to avoid crowds anywhere as well at the entrance to the facilities.

5. **Social Distancing** – People who do not reside in the same place must maintain a safe distance of minimum 2 meters from other people, especially when queuing

6. **Queue**- mark the place that people should be standing at least two meters from each other. Keep a sign visually to avoid crowd and to keep two meters space in the line.

7. **Elevators** – The number of people allowed in the elevator should be posted on a visible sign next to the elevator. The amount of people allowed is half of the original number of people indicated by the manufacturer unless all the passengers are all from the same facility. 8. **Partition at reception** – should there be a service OR reception desk, one must place a partition to avoid transmission of spraying between the worker and the guest. In a space that has a sprinkler fire system OR fire detective system, the partition will be placed from the floor and until 50 centimeters under the sealing at least.
